

Overview

PETMATE is a web-based pet care and pet-sitting management system designed to connect pet owners with trusted pet sitters while providing an organized platform for managing pet profiles, bookings, schedules, and pet care services.

Problem Statement

- Insufficient number of structured pet-care training workshops available for aspiring pet sitters.
- Inconsistent regulatory standards for professional pet-sitting services.
- Inconsistent quality of customer experiences.

Objectives

General Objective: Conducted structured pet-care workshops for aspiring pet sitters at least twice a month.

Specific Objective 1: Consistent regulatory standards for professional pet-sitting services achieving at least 90% compliance across registered providers

Specific Objective 2: Consistent high-quality customer experiences achieving at least 90% positive satisfaction ratings

Target Users / Personas

- **Pet Owner**
- **Pet Sitter**
